GENERAL SECRETARIAT

Dated 29th July 1947.

No. S. R. 321—L. W. 13-47-2. Under Section 12 (4) of the Mysore Labour Act XIII of 1942, the Government of His Highness the Maharaja of Mysore are pleased to publish for general information the accompanying report of the Chief Conciliator in Mysore, Bangalore, in respect of the failure of conciliation proceedings in the dispute between the Minerva Mills Labour Association, Bangalore City and the concerned Mills Management in regard to two Conciliation cases, on separate notices of change given by the said Labour Association putting forth certain demands as detailed therein.

757 MOHAMED ISMAIL SHERIFF, *Gl. Secy.*

OFFICE OF THE CHIEF CONCILIATOR IN MYSORE, BANGALORE.

No. C. C. 25 & 34—46, dated 21st July 1947.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
General Department, Bangalore.

Sir,

I have the honour to make the following report under Section 12 (4) of the Mysore Labour Act, relating to a dispute between the Minerva Mills Labour Association, Bangalore City, and the concerned Mills Management, in regard to two conciliation cases, on separate Notices of Change, given by the said Labour Association, putting forth several demands as stated below.

I. Conciliation Case No. 25—46 :—

There is only one demand, viz., Payment of three months' wages as "High Price Bonus" immediately (in addition to the Dearness Allowance) and its continuance year after year till the prices get down to pre-war level.

II. Conciliation Case No. 34—46 :—

Eleven demands, *viz.*, (1) Desiring payment of a minimum wage of Rs. 1-4-0 per day per worker. (2) Payment of Dearness Allowance to workers on holidays and "played off" days also. (3) Payment of Bonus every six months immediately the half year to which the Bonus relates, is over. (4) Amendment of Standing Order No. 20 and the appointment of a Committee consisting of three Representatives, one from the Association, one from the Management and one from Government, to dispose of cases relating to misconduct of workers. (5) Starting of a Provident Fund Scheme. (6) Grant of twenty-six days' privilege leave and sick leave with half pay extending to a period of three months and extension of leave without pay, on Medical Certificate. (7) Reinstatement of workers dismissed in 1942 as well as of those dismissed subsequently. (8) Payment of wages for the period of stoppage of machines for repairs or for want of ready beams. (9) Confirmation of temporary workers. (10) Providing facilities for the collection of subscriptions and (11) Payment of half the wages to a worker under treatment due to accident in addition to compensation under the Workmen's Compensation Act and taking him to his original appointment, if medically certified to be fit or grant him such work as he could efficiently handle.

2. The Secretary of the Labour Association gave to the concerned Mills two Notices of Change, one in respect of each of the above referred cases desiring several changes on the above issues and set out below. There are in all 12 items of demands. As the Management could not accept any of the demands of the Labour Association, and wrote to the Assistant Commissioner of Labour, Bangalore Division, (who contacted the Management in this respect) that no useful purpose would be served by furnishing their remarks on the demands

in question or by appearing before him (the Assistant Commissioner of Labour) for carrying on negotiations, in view of the fact that the Association had conveniently repudiated agreements entered into with them already, the Assistant Commissioner reported that no agreement could be effected. Upon that the Commissioner of Labour referred these cases to this Office for initiating conciliation proceedings under Section 10 (3) of the Labour Act.

3. The cases were accordingly registered and intimations to the parties were issued for hearing on 11th June 1947. But the proceedings could not be initiated on that day on account of the closing of the Offices on that day on account of the sad demise of the Maharaja of Jodhpur. After fresh intimations to the parties of the hearing date, I held conciliation proceedings at Bangalore on the 18th July 1947 and discussed several items of Demands.

The Management was represented by Mr. D. D. Kale, Labour Superintendent of the Mills and Mr. N. S. Kulkarni, Labour Officer of the Mills, while Mr. B. Munisamappa, Vice-President, Mr. S. Nagabhushana, Secretary, and Mr. H. N. Lingiah, Treasurer of the Association represented the Association. The Assistant Commissioner of Labour, Bangalore Division (Mr. Zia Mohamed) was present throughout.

4. Both the cases were taken up one after another, for conciliation proceedings, the parties being the same. The several items of demands were considered one by one and discussed fully on both sides.

5. *Conciliation Case No. 25—46 :—*

The Demand in the Notice runs thus :—"Though the War has stopped the price of food-stuffs, cloth and other commodities necessary to life have risen high and the labourers of the Minerva Mills feel it impossible to make both ends meet. In this abnormal time of soaring cost of living the Management has stopped even the War Bonus which it used to pay to the workers for the last three years. This has hit the workers hard. So to enable the workers to put up with the higher cost of living the Association demands that the Management should give to each worker in the Mills his three months' wages as "High Price Bonus", immediately (in addition to the Dearness Allowance) and it should continue to do so every year till the prices get down to pre-war level."

The Association representative urged that this was quite necessary and should be granted by the Management and that such a grant has been made in Mandya Sugar Company, the Bhadravati Iron Works, the Coimbatore Textile Mills and similar concerns. The Management representative while admitting that such bonus was given by certain concerns, pointed out that conditions in these Mills (under reference) were different from the conditions elsewhere. For example, this concern has been granting to the workers from several years (even before the War) a Profit Bonus which works out to 10 per cent of the actually earned wages of each worker and is paid half-yearly. The other concerns referred to by the Association have been paying War Bonus only after the commencement of the War and thereafter. This Company which was paying War Bonus during period of War, stopped it after the War. With regard to the rise in the cost of living, the representative of the Management stated that this was met by payment of Dearness Allowance according to cost of Living Index at a rate which is the highest in the State. As such, the Management representative said that this demand could not be conceded. The Labour representative pressed the demand on the ground that the cost of living was much higher than what is indicated in the cost of Living Index. It was pointed out to him that the correct procedure on the part of the Association would be to approach the proper authorities and get the figures corrected. The Labour representative was not satisfied and he pressed the demand. The Management pleaded their inability to concede.

Conciliation Case No. 34—46 :—

Demand No. 1.—Re : *Fixing minimum wage at Rs. 1-4-0 per day pay worker :—*

The Management explained that the fixing of the minimum wage was a question applicable to all industrial concerns and that the lead in this matter should be from Government or a Central authority after a thorough enquiry on both sides (Employer and Employees) as to what should be the minimum wage, and that an individual concern cannot decide this question independently and hence, the demand cannot be accepted. The Association representative pressed the demand but the Management representative could not accept.

Demand No. 2.—Re : *Dearness Allowance to be paid on holidays and "played off" days also :—*

The Management representative stated that this question had already been discussed previously and added that a worker would get Dearness Allowance for days for which he earned the wages and as such the demand was not tenable. The Association representative pressed the demand, but the Management could not concede.

Demand No. 3.—Re : *Payment of half-yearly Bonus immediately after the expiry of the half-year to which the bonus relates :—*

The Management explained that the bonus is payable on profits which have to be calculated after the expiry of the half-year concerned and that as such, some time was necessary for the scrutiny of accounts both here and at Bombay before declaring bonus by the Board of Directors ; thus, the time involved in payment of bonus was inevitable, further, to avoid unnecessary delay, a definite time had been fixed for payment of bonus. The Labour representative was not satisfied with the explanation and pressed the demand. The Management was unable to accept.

Demand No. 4.—Re : *Amendment of Standing Order No. 20 regarding enquiry into Misconduct of workers :—*

The Association representative urged that a Committee comprising of one representative from the Labour Association, one from the Management and one from Government should be constituted to enquire into the cases of misconduct of workers and the punishments to be accorded, since the Standing Order No. 20 as it stands at present leads to exercise of arbitrary power by the Management and to insecurity of service, and that the Standing Order should be suitably amended accordingly. The Management representative said that it was not practicable and could not be accepted. The Association representative pressed the demand, but the Management could not accept.

Demand No. 5.—Re : *Introduction of Provident Fund Scheme :—*

The Labour representative stated that this system of Provident Fund should be introduced for the benefit of the workers. He also pointed that in Binny Mills there is such a scheme existing. Mr. Kale stated that even in the Binny's a worker was entitled to the benefit of only one of the schemes, *viz.*, Gratuity Fund or Provident Fund and not to both. He further explained that they had in the Minerva Mills a system of Gratuity Fund which he considered to be more advantageous to the worker than the Provident Fund Scheme under which the worker also had to contribute, while the entire amount is contributed by the Management under Gratuity Scheme. The Secretary of the Labour Association nevertheless pressed for the demand, but the Management could not concede.

Demand No. 6.—Re : *Grant of Privilege and Sick Leave with Pay :—*

The Association demanded that every worker should have the right to enjoy a privilege leave for twenty-six days per year and that every worker should be entitled to sick leave with half pay for a period not exceeding three months in the year and that if the sick leave extends above three months the worker should be entitled for leave without pay for such period as may be certified as necessary by a Registered Medical Practitioner. The Management representative in reply, stated that the period of privilege leave was raised from seven days to ten days so recently as 3rd October 1946 as the result of an agreement with the Association, and as such it was not possible for the Management to revise it at present. The association representative pressed the demand, but the Management could not accept.

Demand No. 7.—Re : *Reinstatement of Workers :—*

The Association Secretary urged that all workers dismissed in 1942, and all those that were dismissed subsequently should be reinstated. The Management representative pointed out that the demand was very vague and there was no specific case given. He further stated that persons dismissed for various kinds of misconduct covered by the Standing Orders could not be taken back as it would be subversive of all discipline. The Association representative was not able to furnish a list of specific cases in respect of whom reinstatement was damanded. He merely demanded that all workers dismissed in 1942 and thereafter should be immediately reinstated. The Management representative saw no force in this demand and said that it could not be accepted. The Labour representative pressed that the demand should be met. But the Management could not accept.

Demand No. 8.—Re: *Payment of wages to workers when machines are stopped for repairs, etc., or for want of material:*—

The labour representative stated that it was usual to ask a worker to get back home or keep idle on account of repairs to machines or for want of ready beams for the loom, and in the case of weavers working in double looms to ask them to go on with one loom, and that this entails loss of wages for the day either entirely or in part, for no fault of the workers; so, either work should be provided or the wages paid, and that should apply to all workers in all the departments. The Management representative stated that this demand had been discussed in all its aspects at the time of the last conciliation and that could not be accepted for the same reasons and that the position has not changed in any way since. The labour representative still pressed the demand. but the Management could not accept.

Demand No. 9.—Re: *Confirmation of temporary workers after six months service:*—

In reply to this demand, the Management stated that as a result of the agreement dated 3rd October 1946, the period for confirmation of an employee was reduced from two years continuous service to one year and as such, it was not possible for the Management to further reduce the period since they consider that a years's time is necessary to judge the worker's efficiency, regularity and character. The Association representative still pressed the demand and the Management could not accept.

Demand No. 10.—Re: *Collection of Subscription:*—

In reply to the demand, the Management representatative stated that as a result of agreement dated 3rd October 1946, the Management had accepted to collect the subscription on behalf of the Association but since the Association had repudiated that agreement the Management was not prepared to take up the question again. The labour representative pressed the demand, but the Management could not accept.

Demand No. 11.—Re: *Payment of Allowance for the period of absence due to accidents in addition to compensation under Workmen's Compensation Act:*—

The Management replied that they were unable to give relief beyond what was provided for under the Workmen's Compensation Act The labour representative was not satisfied and he pressed the demand. The Management representative said that the demand could not be accepted.

6. All possible ways of settlement were explored, but the parties did not come to any settlement in regard to the above demands.

7. The conciliation in regard to those demands thus ended in failure, which I hereby report.

8. I request that this report may be published in the Gazette as required under Sub-section (4) of Section 12 of the Mysore Labour Act.

I have the honour to be,
Sir,
Your most obedient servant.

959 MOHAMED ISMAIL SHERIFF, *Gl. Secy.*

OFFICE OF THE CHIEF CONCILIATOR IN MYSORE, BANGALORE.

No. C. C. 29-33—46-47, *dated the 25th July* 1947.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
General Department, Bangalore.

Sir,

I have the honour to make the following report under Section 12 (4) of the Mysore Labour Act, relating to a

dispute between the undermentioned Labour Associations and the concerned Managements at Kolar Gold Fields, in regard to changes in the existing hours of work, abolition of the contract system, etc., (as mentioned in the Notices of Change) :—

Conciliation Case No. 29—46 :—

Labour Association—The Oorgaum Mines Labour Association, Oorgaum, (K. G. F.).

Management—The Oorgaum Gold Mining Co. of India, Ltd., Oorgaum, (K. G. F.)

Management—The Kolar Gold Field Electricity Department, Oorgum, (K.G.F.).

Conciliation Case No. 31—46 :—

Labour Association—The Champion Reefs Mines Labour Association, Champion Reefs (K.G.F.).

Management—The Champion Reefs Gold Mines of India, Ltd., Champion Reefs (K.G.F.).

Conciliation Case No. 32—46 :—

Labour Association—The Mysore Mines Labour Association, Marikuppam (K.G.F.).

Management—The Mysore Gold Mining Company, Ltd., Marikuppam (K.G.F.).

Conciliation Case No. 33—46 :—

Labour Association—The Nundydrug Mines Labour Association, Oorgaum (K.G.F.).

Management—The Nundydroog Mines, Ltd., Oorgaum, (K.G.F.).

2. These five Labour Associations gave to the concerned Managements, notices of change, desiring several changes in the existing hours of work, holidays with wages, abolition of the contract system, privilege leave, clothing allowance, housing and lighting facilities, etc., in these Managements. The several changes that are demanded are set out in detail in the Annexure of each notice, and are, in the main, the same, *viz*, 10 in each Associations Notice. There is one more demand in respect of the Mysore and the Champion Reefs Mines and the Kolar Gold Field Electricity Department, and seventeen more demands in respect of the Nundydroog Mines.

A general summary of the several items of demands common in the notices is given below :—

(1) Hours of work for shift or per day, as the case may be, be reduced to six hours in the case of underground workers and to eight hours in the case of surface workers.

(2) The workers (both underground and surface) be granted a day's Holiday with wages every week and that every Sunday be fixed as this Holiday.

(3) The contract system in respect of (both underground and surface) works be abolished and the workers absorbed in the Companies ranks on the same terms as the Companies workmen.

(4) The present Privilege Leave Scheme to be altered as detailed in the Notice of Change.

(5) Clothing allowance to be granted to both surface and underground workers.

(6) Better facilities in respect of housing to workers or, in the alternative, payment of House Rent Allowance.

(7) All workmen to be graded according to the nature and importance of work, etc.

(8) All workers to be given a minimum wage of Rs. 35 per month (surface worker) and Rs. 40 per month (underground worker).

(9) Every worker to be granted a raise in his wage by 50 per cent of the present basic wage.

(10) Every worker to be granted six months' wages as Bonus.

3. The Managements replied to the effect that, as the financial commitments involved in the present demands were far beyond the resources of the Managements, they (Managements) were unable under the present circumstances, to concede the demands as it stands. As the Assistant Commissioner of Labour, Kolar Division, Kolar Gold Field, could not bring about an agreement between the parties, the Commissioner of Labour referred these cases to this office for initiating conciliation proceedings.

4. The cases were accordingly registered and intimations to all the parties were issued. I held conciliation proceedings at Oorgaum, Kolar Gold Field, on the undermentioned dates—

5. As the demands in the Notices of Change were almost the same for all the Labour Associations and as the Labour Representatives desired and the Managements had no objection, all the common demands were taken up and proceeded with together, while the extra demands not common to all the Associations were taken up separately.

6. At the outset, Mr. R. G. K. Morrison, Superintendent, Nandydroog Mines Limited, and Chairman of the Board, on behalf of the Managements desired that the demands may be discussed by both sides one by one in all aspects but the final conclusions may be deferred till all the demands are fully discussed, so that each side may know the full implications and the views of the other side and appreciate them and then come to conclusions in respect of each demand. The Labour Representatives having no objections, each demand was taken up one by one and discussed at great length on the 19th, 20th and 21st May 1947.

The extra demand put forth by the Champion Reefs Mines Labour and the Kolar Gold Fields Electricity Department Labour Association related to grant of Holiday for the 4th November of each year with a view to pay homage to the six workers who fell at the hands of the police on the 4th November 1946 and as a mark of respect to their memory, was discussed at some length. It was pointed out to the labour representatives by the Management that the shooting incident had nothing to do with the working of the Mines and was a separate subject-matter relating to the maintenance of Law and Order by the Government authorities concerned, and that as such the demand could not be accepted by the Managements. After further discussion, the Associations' representatives withdrew this demand.

Before proceeding to deal with the common demands, I shall refer to the 17 extra demands put forth by the Nundydroog Mines Labour Association only. These demands were

fully discussed separately, with this Labour Association and the Mines Management concerned with the following result :—

Demand No. 1, *viz.*—Stating the grade of Air Hoist Drivers should be enhanced to that of the second grade drivers of the engineering section. The position was explained by the Manegement. Then after some discussion, the Management promised to look into the question once again and see what could be done. On this assurance the labour representative did not press the demand.

Demand No. 2, *viz.*—That sons of the labourers should be preferred in filling up places of clerks in offices. The Management stated that efficiency and qualifications are the main things and that the Management would consider this demand and give preference, as far as possible, without prejudice to efficiency and qualifications, but cannot guarantee. Upon this the Labour Association did not press this demand.

Demand No. 3, *viz.*—That the Disc-checkers and the Line Maistries be called Disc-clerks and Line Sub-overseers, respectively, and their daily wages be changed into local pay and that the daily wages of the contractors' clerks be altered into local pay. After some discussion, the Management stated that they understood the view point of the labourers and would see as to how far the demand could be accepted. On this assurance of the Management, the Association withdrew the demand.

Demand No. 4, *viz.*—Stating that butter-milk and tea or coffee should be served to the day-s ift workers and night-shift workers , respectively. The Management explained that due to scarcity of milk, it was not easy to accept the demand. However, the Management stated that they would look into this question and refer the matter to the Labour Welfare Department. On this the labour representative did not press this demand.

Demand Ro. 5, *viz.*—That the workers on night-shift should be granted double the wages. The Management said that they would look into the question and see what could be done. On this the demand was not pressed by the Association representative

Demand No. 6, *viz.*—That a mistress trained in needle-work, spinning and music may be appointed in every Mining School to teach girl students those subjects. The Management promised to refer the question to the Labour Welfare Department. On that, the Association representative did not press this demand.

Demand No. 7, *viz.*—Stating that a regular, correct and reasonable principle should be adopted in regradement of workers and that this principle should be looked into the cases of the past ten years.

Demand No. 8, *viz.*—That pipe fitter category should be introduced in the Engineering Department and whenever changes occur in that grade, the pipe fitter gangmen should be promoted to the higher grade according to their service and efficiency.

Demand No. 9, *viz.*—That efficient and serviced assistants, masons, mason-boys, carpenter assistants, craftsmen assistants and hammermen may be appointed in the vacant places of third grade masons, carpenters, fitters and blacksmiths respectively, with consideration to their services nnd efficiency.

The above three Demands (7, 8 and 9) were discussed together. Finally, the Management wanted time to go into this question in detail in all their aspects in the light of the discussions and see as to what extent these demands could be met, without affecting efficiency. The Labour representative withdrew these demands stating that the Management may formulate their decision on these demands, in two months' time and that if the decision of the Management was not acceptable, the Association would bring the matter afresh by a new Notice of Change.

Demand No. 10, *vtz.*—That a worker with one or more men under him, and a worker with one or more maistries under him should be considered as a Maistry and Head-maistry, respectively. The Management said that the general principle in respect of this demand is accepted, subject to certain exceptions. On this, the Labour representative did not press the demand.

Demand No. 11, *viz.*—That "Coffin be supplied by the Management, cost-free whenever a worker expires." The Management explained that this was not possible and this is more a private and personal affair. Thereupon, the Labour representative withdrew the demand.

Demand No. 12, *viz.* That "a worker under a praticular category should not be ordered to do any more work other than his work." The Management explained the position and pointed out the practical difficulties in giving effect to the demand as it is, and assured that any individual cases, if brought to their notice would be examined. On this, the Labour representative did not press the demand.

Demand No. 13, *viz.*—That "the Telephonists be treated as third grade Bankmen, and their wages paid accordingly." The Management explained the position and stated that they would take a little time and examine the question. After further discussion, the Management agreed that if Telephonists on Auxiliary Shafts could qualify for and obtain Maistry tickets, they would be paid at the rates paid to a maistry and would be given preference, other things being equal, in filling the posts of signalmen. On this, the demand was not pressed by the Labour Association.

Demand No. 14, *viz.*—That "Winding Drivers and Bankmen be graded on their services and not on the nature of the shaft." After discussion, the Management promised that efforts would be made to see that qualified lower grade drivers are not passed over by less deserving men. In view of this assurance, the demand was not pressed.

Demand No. 15, *viz.*—That "the minimum and maximum wages be fixed to Door Boys and Ringers equivalent to the underground basic wages." The Management pointed out that at present no recruit was taken as a Door Boy and that it was generally a retired maistry who was appointed to that place and that if the place is made attractive by raising the scale of wages of the Door Boy, physical fitness and other qualifications would have to be insisted on. After further discussion, the Labour representative withdrew this demand.

Demand No. 16, *viz.*—That "all ambulance and lorry drivers of this Mines be supplied uniform," The Management agreed to concede this demand. Upon that, the demand was not pressed by the Association.

Demand No. 17, *viz.*—That there should be no difference in wages, housing facilities and other merits between the Indian and the Anglo-Indian employees in all categories. The Management said that the difference is gradually going away and that the wages schedule makes no distinction. The matter was discussed at some length. Finally the Management assured that whatever may have happened in the past, there would in future be no such distinction in regard to caste, community or nationality, the only criterion being efficiency and service of the worker. In view of this, the demand is not pressed.

I now come to the common demands (*i.e.*, the 10 demands common to all the five Associations), referred to above. They were all further discussed in full, one by one, on each side, and I note below the position in brief regarding each :—

Demand No. 1 *viz.*—That the working hours, per shift or per day as the case may be, for underground and surface, work, should be fixed as follows :—

Underground Worker	...	6 Hours.
Surface Worker	...	8 do

The Labour representatives explained the demand and stated that other industries had adopted 48 hours a week (8 hours per day or per shift) and that the same may be adopted in the Mines also in respect of surface workers. The Managements stated that they would have no serious objection for this change in respect of surface workers, provided there is a guarantee that the production would not in any way suffer. They desired to take up further consideration of this question after discussing other demands and knowing the reactions on the discussions on other points. Then the case of underground workers was taken up. The Labour representatives pointed out that it is an established principle that there should be difference in the number of hours of work between the surface workers and the underground workers, in view of the nature of work ; that, in recognition of this principle, there is difference even now between these two classes of workers in the number of hours of work ; that, if this is accepted, it would be necessary to allot 7 hours of work per shift ; but by this there would be only three shifts of 7 hours each, and 3 hours will be wasted ; and that would entail loss both to the worker and the Management ; so, if 6 hours shift, as demanded now, is accepted by the Managements, four shifts of 6 hours each may be fixed and there would be continuity of work without any prejudice to production. The Managements on their side stated that even now as it is, the underground workers were not actually working 8 hours, as it would take about 2 hours for the workers to go to the workspot as they leave the workspot about 2 hours earlier ; that the hours of actual work at the workspot are less than 8 hours and that these workers want it to be reckoned as on duty from the time that they enter the premises to the time they leave the premises, for purposes of calculating hours of

work. As such, it was pointed out by the Managements that if this demand were accepted, the hours of underground work would go down further with the result that cost would go up while the production would be seriously affected for the worse, and that this demand could not therefore be accepted. The Labour representatives said that they would guarantee no fall but an improvement in production and that they would see that no worker leaves the workspot until relieved by the worker of the next shift. The Managements said that it was not convincing to them and there were many practical difficulties and they would however, consider this question later on and that the next demand may be taken up.

Demand No. 2 *viz.*—That the workers, both surface and underground, should be granted a day's Holiday with wages every week and that every Sunday may be fixed as this Holiday.

The Labour representatives stated that a day's rest for every worker after 6 days' work was quite necessary to keep him fit for the coming six days' work and that the day of rest should be Sunday; that, at present, though Sunday is a holiday, it is a holiday without pay; and he is paid only 26 days' wages for 26 days of work, and no wages for four days (the days he does not work, *viz.*, Sundays in a month), while the monthly-rated workers are paid for Sundays also though they do not work on Sundays; and as such, the privilege should be extended to daily wage workers also.

In reply, the Managements pointed out that the monthly rated workers also did not get wages for Sundays, and their wages for 26 days were calculated and paid as monthly wages and that, if they work on Sundays, they are paid Overtime; and that, in the case of daily rated workers, their daily wages are fixed taking into account Sundays, and so, the wages paid for 26 days, cover the wages for four Sundays which are non-working days. No agreement could be arrived at. Then the next Demand was taken up.

Demand No. 3, *viz.*—Asking for abolition of contract system.—The Labour representatives explained the several disadvantages and hardships existing under the contract system, wanted that the contract system should be abolished and that the workers now working under the contractors should be absorbed into Company Ranks. Further, they urged that the continuity of service, work status and other accrued privileges of such workers should not be affected by such abolition, and there should be no distinction made. In reply the Managements stated that this contract system was in vogue from a long time and could not be abolished so easily or suddenly without disturbing the established organisation and system of work, prevailing in all the four Mining Companies. The Managements added that this was a big question, requiring careful consideration, and that this demand could not be easily or readily accepted.

Demand No. 4, *viz.*—Asking that the existing scheme of Privilege Leave should be altered so as to entitle an underground worker to one month and a surface worker to three weeks privilege leave, the qualifying period being 240 days and 260 days in the case of underground and surface workers, respectively, according to a graded scheme (as set out in the Notice of Change).

The Labour representatives stated that in consideration of the hazardous and hard nature of work in the underground, the leave urged for was necessary for keeping the labourers fit. They added that, under the existing system of privilege leave, the worker is not able to get the full period of 21 days leave, as the number of days spent in a hospital is treated as "absent" and does not count for the qualifying service for leave; and that, on account of bad foodgrains, workers were frequently falling ill, and that rest for recouping was absolutely necessary. The Managements pointed out that according to Demand No. 2 for every Sunday being treated as a holiday with pay, it would be 52 holidays in a year and that, with this present demand of one month's privilege leave, the total period would come to 82 days or nearly 3 months in a year, which no industrial concern has conceded or could concede. The Managements added that the Companies' Leave Rules compared very favourably with the work service rules in respect of Government concern and even with the Government of India rules, and that demand could not be accepted.

Demand No 5, *viz.*—Asking that clothing allowance of Rs. 15 and Rs. 10 per year should be paid to an underground and a surface worker, respectively.

The Labour representatives explained that this demand was necessary in order to enable the workers in these hard days to get cloth, and that the present rate of Rs. 6 was quite inadequate, under the existing conditions. The Managements stated that clothing allowance was given to underground workers for protection against accidents, and that, that the dress rules were insisted on only in the case of underground workers and that, as regards men working in the surface, no particular mode of dress was insisted on, and they could come in any kind of dress for duty; that, as such, there was no reason to give any allowance for surface workers, and that, as regards the demand in respect of the underground workers, the demand was rather high and the matter would, however, be further considered.

Demand No. 6, *viz.*—That better housing and lighting facilities to all workers should be provided and an Interim House Rent Allowance of Rs. 3 per month per worker who has not been provided with quarters by the Management should be given.

The Managements explained that they have always tried to improve the housing and lighting facilities to workers and that they have on hand a regular scheme in this respect by which they propose to construct 250 to 300 houses in each of the Champion and the Mysore Mines every year. They also pointed out that some of the workers would, even if houses are offered to them, would not accept them on some excuse or other and would ask for allowance instead. The Labour respresentatives stated that the Managements need not pay allowances to those who were offered houses but did not accept them, and that allowances should be paid to those to whom the Companies could not provide with quarters. After discussion, the Managements stated that this was an important matter and they would see that something is done in the matter.

Demand No. 7, *viz.*—Asking that all workmen should be graded on the basis of the nature and importance of the work they do, their efficiency and service and that this should be done with the approval of the Labour Association concerned. The Labour representatives stated the discussion by saying tha the Companies had failed to implement the agreement dated 22nd March 1946 in respect of Wage-Rate Schedule; that in some instances, favourtism has been the guiding factor and not efficiency and service and that proper readjustments are necessary in grading. The Managements on their side explained that the instances quoted by the Associations were only stray instances and that proper adjustments in grading had been made on the basis of efficiency and service, and that individual cases of injustice, if brought to their notice, would be looked into. The Managements added that the question of efficiency was a matter for them to decide and that the final decision should rest with them.

Demand No. 8, *viz.*—Asking that minimum living wage should be fixed at Rs. 40 per month for underground worker and at Rs. 35 per month for surface worker.

The Labour representatives urged that the underground worker, whose job is of a hard and risky nature, should be paid more than a surface worker. The Managements replied that cost of living index being the same both for the underground and the surface worker, living wages should be the same. The Labour representatives argued that the underground worker required better food than the surface worker and should be paid better as he is exposed to danger, every moment, while working underground. At this stage, it was suggested that the report of the Pay Commission set up by the Mysore Government might, with advantage, be awaited and then a further consideration of this demand taken up.

Demand No. 9, *viz.*—Asking that immediate increment in the basic wage of both underground and surface workers by 50 per cent of their existing basic wage should be granted.

The Managements pointed out that the Labour representatives were asking for minimum wage and for reclassification involving higher wages than at present on one side and for 50 per cent of increase in the present basic wage on the other, and that it is not possible to reconcile one with the other. After further discussion it was suggested that this question also may await the Mysore Pay Commission Report, which was expected shortly.

Demand No. 10, *viz.*—Asking that six months' wages should be paid as Bonus to all workers.

The Labour representatives stated that since the War broke out in 1939, the workers in Kolar Gold Fields are to be considered as important as the fighting forces who actually fought in different theatres; that it was with the Gold produced in the K. G. F., that war materials were produced, and that, as such, it would be only right that they (these workers) should share a portion of the glory and that, though the War lasted for a period of six years and though the labourers suffered many a hardship due to high cost of living on account of war conditions, they were not compensated in any way so far and they should be paid 6 months' bonus at one month's pay for each year of War. The Managements stated that one month's bonus had already been paid to the workers and that the demand for six months' bonus was very high, and was not easy to accept, in view of the heavy extra cost involved. After

further discussion, the Managements stated that they would consider this question along with the question of the minimum living wage and of the increment in the basic wage.

After some further discussion, it was suggested to both sides that as some of these common demands related mainly to basic minimum wages, minimum living wage, wage-increments, etc., these might, with advantage, be further considered after the publication of the Mysore Pay Commission Report which was expected shortly, and that the conciliation proceedings may be taken up on another date by which time the Pay Commission Report may be expected to be published by Government and that, in the interval the representatives of the Managements and of the Labour Associations might meet and discuss independently of the Conciliation Proceedings, the other common demands and see if a settlement could be arrived at between the parties. Both sides agreed to this suggestion, and so, the conciliation proceedings were adjourned to the 14th June.

On that adjourned date, the Managements stated that the Pay Commission Report which was expected to be published by that date had not yet been published and that, without knowing the data, expected to serve as the basis or guide for further discussions, the conciliation proceedings could not be proceeded with on that date. But, the Labour Representatives urged that the other demands which had nothing to do with the Pay Commission Report might be taken up for further consideration in order that some conclusions may be arrived at, in respect of them. Discussions followed, and the Managements wanted to know from the Labour representatives how long, if an agreement is reached tentatively, pending final agreements after the publication of the Pay Commission Report, they (labourers) would refrain from putting fresh demands or from going on strike. The Labour representatives said that no such guarantee as the Managements wanted could be given and that much depended on the Managements themselves. There was then a further discussion of the demands remaining to be settled. The Managements stated that as the result of these discussions, they had come to know the Associations' point of view in respect of these demands and would like to have sometime to consider the demands and see how far these demands could be met; and, that in the meanwhile, each Labour Association representative may meet the concerned Management's representative and discuss as among themselves, early next week, and then all the Managements and all the Associations' representatives may meet jointly without the Chief Conciliator and thrash the whole question and come to a settlement, if possible. Thereupon, the conciliation proceedings were adjourned to the 14th July, in order to enable the parties to come to an amicable settlement.

At the proceedings on the 14th July, the Managements stated that though many Pay Commissions in the country have given their reports, no Pay Commission had examined the conditions in the Gold Mining Industry at Kolar Gold Fields, and, so, there was no definite data available to proceed upon in regard to Kolar Gold Fields area, and that a Pay Commission to go into and report on the conditions in Kolar Gold Fields Mining area would, it is proposed, be constituted shortly. By way of interim relief pending the report of that Commission, the Managements made the offer of the following concessions which they said had been decided on, after careful consideration on the best available data and in the light of all the discussion on the demands and would be in operation for a period of one year from now or till the proposed Pay Commission give their report, whichever was earlier.

The terms of this offer of concessions by the Managements are as set out below :—

1. *All-round increase of two annas per day—further increase in Basic Wage.*—Without prejudice to normal increments and the rules therefor provided under the Wages Schedule, the wages of all workers on the Rolls will be increased by two annas per day. But no underground worker shall receive less than the minimum wage of Rupee one per day.

2. *Working Hours—Reduction in Surface Working Hours to Eight per day.*—Surface working hours will be reduced from nine to eight per day, underground working hours will continue as at present. However in the case of the underground workers a Bonus equivalent to half a shift (basic wage) will be paid for working six normal working daysper week.

3. *Privilege leave—Reduction in the qualifying period by ten days.*—The qualifying number of days of work for earning Privilege Leave, for all classes of workers, will be reduced by ten days.

4. *Clothing Allowance—Underground Clothing Allowance increased to Rs. 10 per year.*—The underground Clothing Allowance will be increased from Rs. 6 to Rs. 10 per year.

5. *War Relief Bonus—Further War Relief Bonus equivalent to one month's Basic Wage.*—A further War Relief Bonus of one month's Basic Wage will be paid to all employees now on Rolls who have been continuously on the Rolls for the 12 months period ending with 14th July 1947 and who continue to be in employment upto the date of payment. This Bonus shall be calculated on the Basic Wage prevailing on 14th July 1947.

6. *Dearness Allowance—Further increase by Rs. 2 raising it to Rs. 17-8-0 for all those whose Basic Wage or pay is below Rs. 80 per mensem.*—The Dearness Allowance will be increased to Rs. 17-8-0 to all those whose Basic Wage or Pay does not exceed Rs. 80 per mensem.

These concessions are in addition to those granted in April 1947, *viz.*, increase in Dearness Allowance by Rs. 2, wage increments and War Relief Bonus.

Note.—All the above concessional offers are conditional and subject to the signing of an agreement with the Management for 12 months. They are contingent also on the following conditions being accepted :—

In addition to executing an agreement the Association should undertake to maintain and give no room for any breach of continuity of production and peace on the Field. The agreement should contain a clause providing for penalties for illegal strikes during the period of the agreement, such as forfeiture of all privilege leave for those who participate, commence or encourage illegal strikes.

The Association must give a guarantee that in cases of strikes the workers engaged on essential services on the Mine either in the underground or on surface should not be called off from their work or coerced into the strikes.

The Association's co-operation would be required where and when retrenchment should become inevitale in the Mine in future.

These proposals stated above would be treated as an interim arrangement until a special Pay Commission for the Field gives its report.

The Managements further explained the concessions now offered. They made it clear that this is only an interim arrangement for a period of 12 months or till the special Pay Commission gave their report, whichever is earlier. The Managements added that it would be in the interests of the workers themselves and of the peace of the area, to accept these terms and see to the smooth working of the Mines, instead of precipitating matters and going on strike and causing loss and misery to the workers, and loss to the Management.

In regard to this offer, the Labour representatives stated that while they appreciated the offer in certain respects they felt it fell far short in respect of certain demands, and that they would greatly appreciate if the Management would go a little further and be more generous. They (Labour representatives) proposed to give their counter-proposals and requested the Managements to consider them and see how far they could be met. The Managements said that they had gone to the utmost extent and that no further concessions were possible, and there was however no objection to examine the counter—proposals and see if any minor adjustments could be made. At the desire of both parties, the proceedings were adjourned to the next day (15th July.)

On that day, the Labour representatives gave their counter proposals which were as follows :—

"(1) Every underground worker should be paid a minimum wage of Rs. 1-4-0 per shift, and every surface worker Re. 1 per shift;

(2) Proportionate Bonus to every underground worker should be paid at one shift wage for four normal working days in a week.

(3) Dearness allowance should be linked with the index of living cost.

(4) Attendance Bonus should be calculated on Behar Collary System, *i.e.*, one month's Bonus to be given for good attendance in a year.

(5) Privilege leave of 4 weeks per year may be given for an underground worker, and of 3 weeks for every surface-worker.

(6) Night shifts should be abolished and if it is not possible, each night shift worker should be paid one-fourth shift wage extra.

(7) For work on Sundays, double the wage should be paid.

(8) Corntact system should be abolished.

(9) Dress Allowance of Rs. 12 and Rs. 6 per year should be paid to every underground and surface worker, respectively.

(10) Adjustments of wages should be made on length of total service.

(11) Every worker should be paid 50 per cent more on the present Basic wage.

(12) Three months' wages should be given as bonus (*i.e.*, two more months wages in addition to one month's already paid).

The Managements took time till next day (16th July) for considering these counter-proposals, and at the same time desired the Labour Representatives to consider carefully the offer made by the Managements and consult the labourers.

On the 16th July, the Managements stated that they had considered carefully the counter-proposals and were unable to accept them or modify the terms already offered. The Labour representatives, on their side, expressed inability to accept the terms offered by the Managements and appealed to the Managements to consider again the counter-proposals, and added that they had fully thought over the matter and consulted the workers, and that the workers were not satisfied with the offer. After further discussion and permission on both sides, time was given till the next day (17th July) to enable the parties to think it over again seriously and with a view to see if there was still no chance of the parties arriving at a settlement.

Then, on the 17th July, the parties on either side expressed inability to accept the terms of the other side and to come to an agreement. The Labour representatives said that they had considered the matter very seriously and consulted the workers and that it was not possible to accept the offer of the Managements and that the Managements may still consider once again. The Managements expressed once again that they could not go further and that the terms offered were generous and were the maximum that could be secured by them from their authorities. Finally Labour representatives stated that if the Managements could at least grant two months more wages as Bonus (in addition to the one month's already paid), and agreed to link the Dearness Allowance to the cost of living index during the interim period, the workers would be persuaded to accept the terms offered by the Managements for the interim period. After some more discussion, the Managements said that it was not possible to go any further and agree to these conditions. No agreement between the parties was therefore possible. In the end, the Managements stated that their offer, not being accepted by the other side, is withdrawn. The Labour representatives on their side, stated that their counter-proposals to the Management are likewise withdrawn.

All possible ways of settlement were explored, but no settlement between the parties could be reached in the matter of these ten common demands. The proceedings in regard to these ten common demands thus ended in failure, which I hereby report.

I request that this report may by published in the Gazette, as required under Sub Section 4 of Section 12 of the Mysore Labour Act.

I have the honour to be,
Sir,
Your most obedient servant,
NAVANEETHAM,
Chief Conciliator in Mysore.

1568

Dated 25th August 1947.

No. S. R. 748—L. W. 13-47-6. Under Section 12 (4) of the Mysore Labour Act, XIII of 1942, the Government of His Highness the Maharaja of Mysore are pleased to publish for general information the following report of the Chief Conciliator in Mysore of the failure of conciliation proceedings in the dispute between the Mysore Chemicals and Fertilisers, Labour Association, Belagula and the concerned Management, in respect of the enforcement of 48 hours of work per week for the workers in the Factory as per amendment to Section 47 of the Mysore Factories Act, 1936, and payment of overtime allowance for workers for work exceeding 48 hours per week since 16th September 1946 till the scheme of 48 hours work per week is enforced.

1575 MOHAMED ISMAIL SHERIFF, *Gl. Secy.*

OFFICE OF THE CHIEF CONCILIATOR IN MYSORE.

Notification dated (Camp) Mysore, 12th August 1947.

To

The Secretary to Government,
General Department,
Bangalore.

Sir,

No. C. C. 27—47. I have the honour to make the following report under Section 12 (4) of the Mysore Labour Act, relating to a dispute between the Mysore Chemicals and Fertilisers' Labour Association, Belagula, and the concerned works Management in regard to the enforcement of 48 hours of work per week for the workers in the Factory as per amendment of Section 47 of the Mysore Factories Act of 1936, and payment of overtime allowance for workers for work exceeding 48 hours per week since 16th September 1946 till the above scheme of 48 hours work per week is enforced.

(2) The President of this Labour Association gave to the concerned works Management a notice of change, dated 3rd March 1947, making the above demand. As the Assistant Commissioner of Labour, Mysore Division, did not succeed in bringing about an Agreement between the parties, the Commissioner of Labour referred the case to this office for initiating conciliation proceedings under Section 10 (3) of the Labour Act.

(3) The case was accordingly registered and intimations to the parties were issued for hearing. I held conciliation proceedings at Bangalore on 30th April 1947, when the subject-matter of the Notice of change was discussed at some length. The Management was represented by Dr. K. L. Ramaswamy, General Manager of the Works, assisted by Mr. N. G. Narayan, Labour and Welfare Officer of the works,

while on behalf of the Labour Association were present, Mr. M. S. Joseph, President of the Association and the following office bearers:—

Messrs.—

1 A. Subramanya Iyer, Vice-President
2 Y. N. Madhava Rao, Secretary
3 R. S. Nivas, Assistant Secretary
4 K. Ramachandran, Treasurer

(4) The Assistant Commissioner of Labour, Mysore Division (Mr. C. N. Nanjappa), was present at the Conciliation meeting.

(5) The Labour representatives explained the demand and stated that as per Section 47 of the Mysore Factories Act, as amended recently the employees were entitled to twice their ordinary rate of pay in respect of overtime work and that it should be given effect to from 16th September 1946 till the system of 48 hours of work per week is enforced. They further alleged that the Management was delaying the introduction of the system of 48 hours of work per week with a view to extract duty wrongfully from the employees.

(6) The General Manager, on behalf of the Management, contended that the amendment of Section 47 did not in any way effect the provisions of the Act inasmuch as the proviso to Section 34 of the Factories Act has not been modified. He added that in view however of the present Notice of Change, the Management wanted to have an authoritative opinion on the subject, and that the matter had therefore been referred to the Chief Inspector of Factories for instructions and that the reply was awaited. The Association representatives contended that when a section was amended the proviso should also be taken as having been amended, and, as such, there was no need to refer the matter to the Chief Inspector of Factories and that it only caused unnecessary delay. The Management's representative replied that they had no intention either to delay, or to evade the provisions of the Act, but what they wanted was to make sure of the scope of the amendment to the said section by getting the opinion of the authority competent to give an opinion in order to enable the Management to take a final decision in the matter. Hence, the General Manager requested for a short adjournment by about three weeks, by which time he would, he hoped, get a reply from the Chief Inspector of Factories. After further discussion, the Labour Association agreed to the grant of three weeks' time to the Management to enable them to give their final decision in the matter.

The proceedings were accordingly adjourned by three weeks on the understanding that the Assistant Commissioner of Labour would contract the parties and intimate to the Office, settlement (if any) or otherwise, so that this Office may take further action in the matter.

The Assistant Commissioner of Labour, who contanced both the parties reported in his letter dated 22nd May 1947, that the Management was not able to get the opinion of the Chief Inspector of Factories so far, and as such they (Management) could not come to any final decision and would like to have three more weeks' time. He added that the Labour representatives were not agreeable for the grant of any further time to the Management.

Under the Act, the proceedings had to be completed within one month of the initiation of the proceedings. But it appeared that the opinion of the Chief Inspector of Factories would help the Management to come to a settlement. So, I considered it desirable that the Management was allowed the further time sought for. Accordingly, Government were addressed in this Office letter dated 3rd June 1947 to grant two fortnights' time, exclusive of the time granted with the consent of both the parties.

Even so, the Management did not get a reply before the expiry of this period. As the proceedings could not be completed, this Office further requested Government by a letter dated 26th July 1947, for another fortnight's time under Section 12 (1) (*a*). But again the General Manager has written in his latter dated 1st August 1947 (received in this Office on 7th August 1947) stating that no reply has been received from the Chief Inspector of Factories.

Under Section 12 (1) (*a*) the total extension of time is only two months in the aggregate and there is no provision for extension of time beyond two months, even by Government. As things stand, there seems no probability of the Management getting a reply from the Factories Chief Inspector. In the circumstance, I think, it is no use waiting further and there is apparently no chance of the parties coming to a settlement in the matter. The position is that the demand is not conceded by the Management and that the Labour Association is pressing for the demand. Hence, no settlement seems possible between the parties in regard to this matter.

All possible ways of settlement were explored but no settlement could be reached.

Thus, the Conciliation Proceedings in the case ended in failure, which I hereby report.

I request that this report may be published in the *Mysore Gazette* as required in sub-section (4) of Section 12 of the Mysore Labour Act,

I have the honour to be,
Sir,
Your most obedient servant,

NAVANEETHAM,
Chief Conciliator.

GENERAL SECRETARIAT

Dated 29th November 1947.

S. R. 1674—L. W. 13-47-8.—Under Section 12 (4) of the Mysore Labour Act, XIII of 1942, the Government of His Highness the Maharaja of Mysore are pleased to publish for general information the accompanying report of the Chief Conciliator in Mysore, in respect of the failure of the Conciliation proceedings in the dispute between the Mysore Kirloskars Employees Association, Harihar, and the concerned Works Management (The Mysore Kirloskar, Ltd., Harihar) in regard to two notices of change, given by the said Labour Association, putting forth several demands specified in the accompanying report.

4117 MOHAMED ISMAIL SHERIFF, *Gen. Secy.*

To

The Secretary to Government of Mysore,
General Department,
Bangalore.

Sir,

I have the honour to make the following report under Section 12 (4) of the Mysore Labour Act, relating to a dispute between the Mysore Kirloskars Employees Association, Harihar, and the concerned works Management (The Mysore Kirloskar, Ltd., Harihar), in regard to two notices of change, given by the said Labour Association, putting forth several demands as stated below:—

I. Notice of Change (Dated 7th July 1947) with Nine Demands, *Viz.*

(1) *Wages.*—Minimum wages for an employee per day excluding dearness allowance must be raised to Re. 1.

(2) *General Increments.*—All employees should be given an increment of 25 per cent in their wages.

(3) *Dearness Allowance.*—The present scale of dearness allowance of Rs. 18, Rs. 22 and Rs. 32 must be raised to Rs. 25, Rs. 30 and Rs. 40, respectively.

(4) *Bonus.*—(*a*) A bonus of four months wages should be given to all employees who have completed one year service.

(*b*) Those who have served less than one year and more than one month should be given bonus proportionately according to their service put in.

(5) *Grades.*—The employees who have completed their grades must be given a fixed salary of Rs. 115 on monthly basis.

(6) All employees should be provided with a medical attendance and medicines free of cost.

(7) The deduction of money as "Double Absence" is against the standing orders and the Mysore Labour Act, 1942 and this should be stopped and the deducted money should be retured to the workers.

(8) All workers should be provided with quarters or be given house allowance.

(9) The three thrown out workers, namely, Naykar Shantavva T. No. 96, Halladakere Gangavva, T. No. 97 and Kenchappa Pujari, T. No. 198 should be reinstated.

II. Notice of change dated also 7th July 1947, Demanding a Revision (as set out in the Annexure to the notice of change) of the Standing Orders of the Company.

(2) The Management replied to the Labour Association President, setting out their position in respect of each demand and finally stating their inability to concede any of the demands as it stands. The Assistant Commissioner of Labour, Mysore Division, reported that he contacted the parties and held preliminary Negotiations and that no agreement could be brought about. Upon that, the Commissioner of Labour in Mysore referred the case to this Office on the 7th October 1947 for initiating conciliation proceedings under Section 10 (3) of the Labour Act.

(3) The case was accordingly registered and intimation sent to the parties for hearing on the 8th November 1947. But on that day, the Management representative appeared, but as

the Association representative was absent, and there was a letter from the Association President, pleading inability to attend, the conciliation proceedings could not be initiated on that day and had to be adjourned to another date. The case was arranged to be taken up on the 19th instant. Fresh intimation of this hearing date was sent to the parties, and I held conciliation proceedings accordingly on the 19th instant.

(4) On behalf of the Management were present Mr. M. B. Jambhekar (General Manager and ex-officio Director of the Company), Mr. N. W. Gurjar (Director of the Company) and Mr. R. L. Kirloskar (Deputy General Manager). The Labour Association was represented by its Secretary, Mr. G. Nagaraj. The Commissioner of Labour in Mysore (Mr. R. Ramachandra Rao Bhombhore), and the Division Assistant Commissioner of Labour (Mr. H. M. Mahalinganna) were also present.

(5) The two Notices of Change were taken up one after another, for conciliation proceedings. The several items of demands were considered one by one and discussed fully on both sides. The result is as stated below :—

No. I. Notice of Change With Nine Demands :—

(6) **Demand No. 1.**—Refers to wages and is that minimum wages for an employee per day excluding dearness allowance should be raised to Re. 1.

The Association representative argued that since the cost of living had gone up very high the present minimum wage (of annas seven for an adult per day) was quite inadequate and that, in view of the high cost of living, the nature of the industry, the locality (Harihar) right on to the frontier, and of the general conditions of labour, the minimum wage should be raised to one rupee per day. He mentioned that a minimum wage from Rs. 2 to Rs. 3 per day was being paid in Bombay, and that the Association's demand was a modest and necessary one.

The Management explained the position in this respect thus. This demand refers only to unskilled manual cooly labour for adults in the Factory, the work done by this class of labour being sweeping the floor, carrying things from place to place and the like. The present minimum wage for these labourers is seven annas per head per day, exclusive of dearness allowance, and comes to Rs. 1-2-0, inclusive of dearness allowance. This compares favourably with the minimum wage paid elsewhere in Mysore State for such class of labour. For example, in Davanagere which is next-door to Harihar, it is only ten to twelve annas and there is no dearness allowance paid. The Management have made enquiries. A minimum wage of one rupee per day for this class of labour asked for is too exorbitant and is not prevailing in any factory in Mysore State. The Association, though asked to mention any instance of a factory in Mysore where a minimum wage of one rupee per day, excluding D.A., is given to such class of labour, has not done so and is not able even now to give any such instance or to furnish a definite data for the demand. So, the Management is not able to agree to this demand.

Another point urged by the Management in this connection was that the fixing of minimum wage was a general question that is applicable to and affecting all industrial concerns in the State and should be taken up by the Government or a Central Authority and decided after a thorough enquiry on both sides as to local conditions and all relevant factors, through a Special Commission (like the Pay Commission), and that one individual concern cannot decide this question by itself independently of the other concerns. The Management stated that they would abide by the decision that the Government would reach after enquiry by a Commission in the matter.

It was also urged by the Management that, in view of the existing agreement between the Management and the Association, dated 30th August 1946, and registered on 7th November 1946, on this issue of wages and on other issues, and binding on the parties for two years, the present demand about minimum wage is out of order and cannot be entertained. The Association representative replied that the issue in this demand is about the minimum wage, while that registered Agreement was in regard to the issue of increments of wages and that, as such, the Management's objection was not tenable.

Finally, the Management representative stated that the demand, as it stood, could not be agreed to, there being no data given by the Association in support of the demand, and that the Management would abide by the decision of Government on the recommendations of a Special Commission that may be set up to go into the question. The Association representative pressed the demand, but the Management representative could not accept.

Demand No. 2.—Refers to General increments in wages and says that all employees should be given an increment of 25 per cent in their wages.

The Association representative in explaining this demand said that production had increased in the Factory and that the Company had earned more profits and that the employees were therefore entitled to a general increase in their wages, as demanded.

The Management representative contended that they had given a substantial increment, last year (*i.e.*, in 1946), and that, in consideration of that substantial increment of last year, it was mutually agreed between the Association and the Management that the question of wage increment should not be raised for two years, *i.e.*, up to July 1948 [*vide* Clause 7 (*a*) of the Agreement, registered duly on 7th November 1946 and referred to above], and so the question of increment of wages does not arise at present.

The Association representative replied that there was, in that Agreement, provision to raise the issues in the event of any national or international change in the country, and that such a change had come about now, and, so, the demand was in order. The Management representative pointed out that, even assuming that there was a national or international change on account of the advent of Swarajya and Independence in India and in Mysore, since, the event came only in August 1947, while the Association's Notice of Change was in July 1947 and so, there was no national or international change at the time of giving the Notice of Change. Further, the Management explained, by facts and figures, that, after the advent of Independence in India, the business of this Company has been adversely affected and has considerably fallen, inasmuch as the markets that existed in Pakistan and in Junagadh and Kashmir and Hyderabad are lost to the Company. It was stated that the Company used to get a good number of orders from these places and that orders have fallen by about 50 per cent as compared with last year, and that, while the average number of orders of last year was 57, the number of orders this year so far had fallen to 36.

Finally, the Management said that they could not accept this demand, and that, where an agreement, entered into and registered and subsisting is not honoured, there is no use of entering into a new agreement. The Association representative pressed the demand, but the Management representative could not concede.

Demand No. 3.—Relates to Dearness Allowance and asks that the present scale of dearness allowance of Rs. 18, Rs. 22 Rs. and 32 must be raised to Rs. 25, Rs. 30 and Rs. 40, respectively.

The Association representative stated that as the cost of living had gone up considerably since the time of the grant of the present rates of dearness allowance, the rates now asked for should be granted. The Management replied that the present scale of dearness allowance is already higher than the scale adopted by the Government of Mysore and that, in case the scale is increased by Government, the Management will increase the scale of dearness allowance in proportion to the scale that would be adopted by Government.

The Association representative still pressed the demand. The Management regretted that it was not possible to accept.

Demand No. 4.—Relates to Bonus.

The Association asks that (*a*) a bonus of four months wages should be given to all employees who have completed one year service, and (*b*) those who have served less than one year and more than one month should be given bonus proportionately according to their service put in.

The Management stated the position in this respect thus: The bonus is always an *ex-gratia* payment made at the discretion of the Management, and cannot be demanded as a matter of right. The Board of Directors have passed a resolution, in the meeting held on 12th October 1946, instructing the Managing Director that the payment of bonus be made only after the yearly accounts are adopted by the Directors and General Body of Shareholders. It was decided to hold the meeting of the Board of Directors in the first week of October 1947, when the final balance sheet for the year 1946-47 will be considered and adopted. The bonus sanctioned by the Directors would be paid after the approval of the General Body of Share holders. The General Meeting of the Shareholders of the Company was since held on the 15th instant, and it has been proposed to pay a bonus to the employees the 1/6 of basic wages earned during the year, (excluding dearness, over-time and other allowances). The amount that is set apart for the payment of bonus to the employees is the same as that set apart last year.

The Association representative argued that, while three months' wages were given as bonus last year, two months'

wages were given as bonus this year, though the profits of the Company has increased. The Management representative explained that the increase in profits was due to the raising of the investment on the machinery from rupees eight lakhs to Rs. 12 lakhs and also to the employment of more men and to the payment of higher wages, during the year.

The Association pressed the demand, but the Management could not agree to it.

Demand No. 5.—Relates to the question of grades.

The Association ask that the employees who have completed their grades must be given a fixed salary of Rs. 115 on monthly basis.

The Management replied that the final grades were decided only last year, and it was mutually agreed as per clause No. 3 (*a*) of the Agreement, (referred to above) and, hence, this question of changing grades does not arise.

The Association representative said that he was not satisfied with the reply of the Management and that the demand should be conceded. The Management representative said that the demand could not be accepted.

Demand No. 6.—Is that all employees should be provided with medical attention and medicines, free of cost. The Association representative said that there was free medical relief provided in all industrial concerns.

The Management stated the position in the matter thus: Under the present practice in this Company, a small nominal sum of only three annas per month per worker getting less than Rs. 20 and four annas per month per worker getting more than Rs. 20 is being collected. This is done only after getting the consent of all the workers who willingly agreed in the open meeting held in 1942. The medical aid given is not only to the workers but also their family and children. The Management had, however, applied to the Senior Surgeon to the Government of Mysore, requesting that the Medical Department may take over charge of this work. The matter is under the consideration of Government, and, until that is finally decided, the existing arrangement may stand. At the same time, the Management would make enquiries as to the arrangement in this respect in other industrial concerns. If there was free medical aid given in other concerns, the Management would consider favourably this question of making medical aid free in this concern as demanded by the Association.

In view of this assurance of the Management representative, the labour representative said that he would not press this demand.

Demand No. 7.—Relates to "Double Absence" deduction system.

The Association says that deduction of money as "Double Absence" is against the standing orders and the Mysore Labour Act and this should be stopped and the deducted money should be returned to the workers.

The Management's reply was that the Management is willing to stop the "Double Absence" system at once and that, in fact, it has already been stopped from 1st August 1947. The Association representative wanted the deducted money to be returned to the workers, (as per the second portion of the demand), and stated that the Management should agree to it. The Management representative answered that the Management could not agree to refund the amount so far collected, extending over several years, and there were some practical difficulties in the way: *e.g.*, (a) the accounts of all the previous years had all been closed and those "Deduction" amounts were not available now; (*b*) taxes, such as Income-tax, etc., have all been paid on the profits including those amounts and there was no question of getting back the income-tax paid in respect of those amounts.

The Association representative pressed the demand, but the Management could not accept.

8. **Demand No.**—Is that "all workers should be provided with quarters or be given house allowance".

The Management explained the position in this respect thus: The Management is aware of the present housing difficulty and is very keen to solve this problem. But, inspite of strenuous efforts, the land proposed to be taken up for the purpose of putting up houses for the workers is not yet made available to the Company though orders have been passed by the Government to acquire the land for the Company and though the Management has even credited to Government towards the acquisition cost of the land the money (Rs. 29,305-8-9 on 3rd April 1945 and Rs. 13,444-12-6 on 28th February 1946, total Rs. 42,750-5-3). The amount is lying with the Government since a pretty long time, but the possession of the land is not given as yet, despite the several representations made to Government in this matter. However, the Management hope that the question of getting the land will be settled early. It is needless to mention here that it is not possible for the Company to provide house to every worker of the Factory. The Management will try to ease the position as far as possible. As regards the demand for grant of house allowance, it is against the policy of the Company to give house allowance to the workers. Such a thing does not exist in any factory. So, the Management regret that this demand (for house allowance) cannot be considered.

Still, the Association representative pressed the demand in its entirety, but the Management regretted that the demand as such could not be accepted.

9. **Demand No.**—Is that the three thrown out workers, namely, Neykar Shanthavva, T. No. 96, Halladakere Gangavva, T. No. 97 and Kenchappa Pujarai, T. No. 198, should be reinstated.

The reply of the Management is this. Those three workers behaved riotously and disorderly in the factory premises. In fact, they joined together and beat with shoes two of the workers just near the main gate of the factory. This incident has been witnessed by a number of workers, and even by some of the persons of the Management. As the behaviour of those workers was too riotous and disorderly, the Management were compelled to terminate their services under the Rule 19 (k) of the Standing Orders of the Company. The Management found it very necessary to take this action in order to keep up the discipline in the factory. Hence, the Management are unable to take them back to work.

The Association representative does not dispute the incident, but he contends that the quarrel took place outside the works premises, and so, the Management was not justified in taking notice of the incident and discharging from the service of the Company the three workers concerned.

The Management representative explained that it was a flagrant case of riotous and unruly behaviour of those three workers in the factory premises and that the scene of the incident was just near the main gate and forms part of the factory premises, and that the Management felt compelled, after enquiry and deliberation, to take proper disciplinary action and discharge them from service, under the Standing Orders, and that the punishment was fully justified by the facts and circumstances and there was no reason to extenuate their conduct and take them back to work.

Still, the Association representative insisted on the Management reinstating these workers and pressed the demand. The Management regretted the demand could not be agreed to.

II. Notices of Change.

7. Coming now to the other Notice of Change, the Demand therein is for a revision (as set out in the Annexure thereto) of the Standing Orders of the Company. The changes proposed by the Association in the existing Standing Orders are not few—(there are in all 20 changes),—and cover the major part of the Standing Orders and they are not of a minor or trivial nature either, but are of a substantial character, going to the root and fundamental principles of the Standing Orders in regard to employment, service conditions, attendance, hours of work, leave conditions, punishment for misconduct, conditions for termination of service, etc.

The reply on the other side was that the Management would collect the latest changes, if any, from the Government and also collect the up-to-date data and would then invite the Association for discussion, and there was no data now on which to base discussion and come to a decision in this matter.

The Association representative could not furnish the data or basis for the proposed changes in the Standing Orders. It was also elicited that he had not consulted the Commissioner of Labour in this matter. Under the Act (*vide* Section 9), settlement of the Standing Orders is made by the Commissioner of Labour. The existing Standing Orders of the Company were settled by the Commissioner of Labour in November 1942. In the circumstances, it was suggested to the Association Representative, both by the Commissioner of Labour and by me, that, though the Association, desiring a change in any such Standing Order, could give a Notice of Change under Section 10 (2) of the Act, it would be more appropriate and useful for the Association to seek the aid of the Commissioner of Labour in the first instance in this oespect, so that the Commissioner may discuss and negotiate with both the parties and try to bring about a settlement of Standing Orders particularly as the present demand is practically one for substituting the existing set of Standing Orders by a new set of Standing Orders; and, that, in case or in respect of any items on which no agreement between the parties could be effected by the Commissioner of Labour, then the Association might

give a Notice of Change. He (the Association Representative) was advised to consider this suggestion. He did not agree to this suggestion, but stated that this demand should be settled once for all now only before the Chief Conciliator.

The Management Representatives said that, in the absence of full information or data in their possession, it was not possible for them to discuss the demand now, and that the Association may well leave the matter to the Commissioner of Labour for discussion and settlement. The Association Representative did not agree to this and he pressed the demand. The Management's representatives said that the demand as it stands could not be accepted. So, no agreement could be effected between the parties on this issue either.

8. All possible ways of settlement were explored, but the parties did not come to any settlement in regard to any of these demands, except Demand No. 6 (for free medical aid) in No. I Notice of Change.

9. The conciliation in regard to these demands, excepting demand No. 6, thus ended in failure, which I hereby report.

10. I request that this report may be published in the Gazette, as required in Sub-Section (4) of Section 12 of the Mysore Labour Act.

I have the honour to be,
Sir
Your most obedient servant,
NAVANEETHAM, *Chief Conciliator.*

JUDICIAL DEPARTMENT

IN THE COURT OF THE *EX-OFFICIO* FIRST CLASS MAGISTRATE, SHIMOGA.

Notification dated 25th day of December 1946.

Order under Section 144, *Cr. P. C.*

Whereas it has been made to appear before me by the sworn statement of the Police Inspector of Shimoga Taluk and other information received by me, that the feelings between the Hindus and Muslims in Shimoga Town limits has been strained for some time past, that since the Ganesha and Ramzan feasts, these feelings have not been cordial, that there have been scares and rumours of communal clashes which have resulted in a state of tension between the two communities and that there is reason to believe that processions followed by public utterance of slogans are likely to be organised in the near future.

And whereas, I am satisfied from the survey of these incidents and from information laid before me that there is likelihood of a breach of peace between the Hindus and Muslims, if such processions with or without music are permitted to be taken out and that there are sufficient grounds for proceedings under Section 144, Cr. P. C. and that immediate prevention is desirable and that unless such action is taken, there is likely to be immediate breach of peace and disturbance of public tranquillity.

I, M. Venkatagiri Setty, Esq., B.A., Sub-Division Officer and *Ex-officio* First Class Magistrate, Shimoga Sub-Division, in virtue of the powers vested in me under Section 144, Cr. P. C. do hereby order to apply to Shimoga Town or within two miles' radius thereof:—

(i) That there should be no assembly of five or more persons except under a licence issued by me or some other competent authority.

(ii) That no procession religious or otherwise should be taken out without a license issued by me or by competent authority in the Shimoga Town and within a radius of two miles thereof. This does not apply to funeral processions.

(iii) That no person should carry any fire-arms, sword, club, stones, lathies or other leathal weapons in the Shimoga Town or within a radius of two miles thereof.

(iv) That there should be no public utterances, singing of songs, playing music, delivering of harangues, using gestures which are likely to incite communal animosity or disturbance.

(v) That there should be no preparation or exhibition of any pictures, symbols, placards or any other objects which are likely to incite religious or communal animosity or disturbance.

As the case is one of emergency, the order is passed *ex-parte* under the provisions of the sub-clause 2 of Section 144, Cr. P. C. and this order will be in force for a period of one month from this date.

Any person or persons violating this order or the provisions or conditions thereof will be dealt with in accordance with law and assemblage of processions in contravention of this order, will be deemed as unlawful and are liable to be dispersed by force.

Given under my hand and the seal of this Court this 25th day of December 1946.

GOVERNMENT OF MYSORE—ELECTRICAL DEPARTMENT.

OFFICE OF THE CHIEF ELECTRICAL ENGINEER TO THE GOVERNMENT OF MYSORE, BANGALORE.

Notification dated 7th January 1947.

Press Note.

Frequency Conversion Scheme from 25-cy. to 50-cy.

"The attention of all concerned is invited to the Press Notes issued by Government from time to time giving expression to their intention to convert the supply frequency from 25 to 50 cycles throughout the State except Kolar Gold Fields. This change has to be effected in Bhadravati area covering Shimoga and Chitaldrug Districts during the year 1947 and in other areas during 1948-50.

2. As notified already by Government in Press Note issued during June 1946, it is required that motors installed on or after 1st May 1946 should be suitable for both 25 and 50 cycles. Such of the consumers as have not adhered to the above instructions should arrange to obtain at their own cost, appropriate equipment in time for utilising 50 cycle power to be made available. Failure to do so will entail disconnection of service, without prejudice to the claim of the Department accruing from the agreement entered into by the consumer with the department.

Equipment installed before 1st May 1946.

3. In case of individual consumers, other than limited liability companies, whose installed capacity is less than 50 H. P., the Electrical Department will bear the cost of conversion, the mode of conversion being left to the choice of the department.

4. In all other cases, the following procedure will be adopted :—

(*a*) In case of motors where reconnection is possible with appropriate changes in the size of pulleys, etc., the entire cost of conversion will be borne by the Department.

(*b*) In case of motors requiring rewinding to suit 50 cycles, the cost of conversion will be borne equally by the consumer and the Department.

NOTE :—If in cases of installations falling under categories (a) and (b) above, the owners desire replacement of their 25-cycle motors by 50 cycle motors, the Department is liable to pay to the owners only such estimated amount as is likely to be incurred in effecting the conversion as suggested above, the balance of cost being borne by the owners.

(*c*) In case of motors requiring complete replacement:—

(*i*) The Department will take over the existing 25-cycle motors, and

(*ii*) The consumers have to pay to the Department amounts equivalent to the depreciation value of the above motors calculated at the rate prescribed in the Mysore Income-Tax Act (v) of 1923 as amended from time to time.

(*iii*) The Department will supply to the consumers new motors of appropriate sizes suitable for 50-cycle power supply.

5. In order to effect this conversion a partial or total interruption of power supply would be inevitable, but the Department will take all reasonable precautions and steps to see that the inconvenience caused to the consumers is a minimum. It is hoped that the consumers will extend to the Department their whole-hearted co-operation.

6. For any loss that a consumer may sustain during the period of interruption or due to damage to his equipment after the conversion is effected, the department cannot be held responsible beyond the guarantee to be given by the manufacturer or firm or supplier of the motors as the case may be in the three cases (*a*), (*b*) and (*c*) detailed above.

7. Any additional information or further clarification needed on the above points may be had from the Superintendents of Sections of the Department, or from the Chief Electrical Engineer.
